

The Bayfield Area Trails (BAT) Committee Memorandum of Understanding (MOU)

- I. Background:** The area in and around Bayfield, Wisconsin is valued by residents and visitors for its natural beauty, cultural history, and outdoor recreational opportunities on land and water. We respectfully acknowledge that this region is the traditional homeland of the Anishinaabe people, also known as the Chippewa or Ojibwe, who have stewarded this land throughout the generations. Among the land-based recreational opportunities is enjoying trails of all kinds including non-motorized (hiking, Nordic skiing, snowshoeing), mechanized (year-round biking), and motorized (snowmobiling, ATV/UTV). Area residents also use these trails for transportation and health benefits. Trails help build appreciation of the natural world, indigenous traditions, and cultural history. While there are many existing trails for these activities, they are not well connected, nor is there adequate capacity to maintain and manage them. In the spring of 2019, recognizing the needs and benefits of enhancing multiple-use trails, a core group of representatives from local governments and non-governmental organizations (NGOs) in and around Bayfield convened to explore collaboration toward common goals.

This non-binding MOU is intended to serve as a guide to the understandings of the cooperative roles of participating entities in promoting the mission, vision, goals, and objectives expressed in this memorandum. This MOU is not intended to alter the existing authority, rights or claims of any participating entity or representative. This MOU may not be construed as an enforceable agreement nor an exchange of consideration by the participants. This MOU may not be construed as a delegation of any authority to the representatives by their respective agencies who voluntarily participate in this MOU.
